ZACKS RANK BUY STOCKS

The Zacks Rank is a powerful short term stock ranking system that has generated a 31% average annual return. Every day on Zacks.com we highlight four new Zacks Rank Buy stocks based on the main schools of investing: Aggressive Growth, Growth & Income, Momentum and Value.

Aggressive Growth - Research In Motion (RIMM)

Research In Motion (RIMM) has averaged a 5.3% surprise over the past four quarters. This year's earnings estimates spiked 24 cents in just the past week. Read the full analysis on RIMM now!

Growth & Income - Bunge Ltd. (BG)

Bunge Ltd. (BG) declared a regular quarterly dividend of 17 cents per share in late Feb. Wall Street estimates are on the rise. Its ROE of 15% is in line with the industry average. Read the full analysis on BG now!

Momentum - Olympic Steel Inc. (ZEUS)

Olympic Steel (ZEUS) shares have been surging forward in the last two weeks as the company gets ready to report its first quarter earnings on Apr 30. Read the full analysis on ZEUS now!

Value - ArcelorMittal (MT)

ArcelorMittal (MT) is on an acquisition binge, announcing 35 transactions in 2007. It also bought back \$1.8 billion in stock last year and expects to buy back \$2.1 billion in 2008. Read the full analysis on MT now!

BEST OF PEOPLE AND PICKS

People And Picks is the brand new Zacks Community website. Already, top people are demonstrating their stock-picking skill every day. Visit People And Picks now!

User Back2BeBad2 gives a buy rating to CROX, which he says is oversold.

He also likes solar play SOLF, which he says is "already profitable and growing swiftly," and ACI, which he calls "my favorite pick in the coal sector."

Back2BeBad2's picks so far are anything but bad. He's ranked in the top 12% of all users on the site.
